

Jones Automation - Exercise

Intro

In this exercise you will need to create a simple automation using the Playwright library.

Playwright is a javascript library that allows you to simulate Chrome usage by writing javascript code, this is why it is optimal for web sites automation.

Playwright runs on Node so you first must install and run Node:

<https://nodejs.org/en/download/>

Node can be installed both in Windows and Linux, many installation guides are available online.

Playwright library:

<https://playwright.dev/docs/library>

API guide:

<https://github.com/microsoft/playwright>

Examples:

<https://github.com/playwright-community/playwright-jest-examples>

The exercise:

Create an automation file to check the following site:

<https://test.netlify.app/>

The automation flow should:

- Type values in the Name, Email, Phone, Company and Website fields.
- Create a screenshot of the page before clicking the "Request a call back" button.
- Bonus: Change the Number of Employees from 1-10 to 51-500
- Click the "Request a call back" button.
- Write to the console.log when reaching the thank you page.

When you are done please send us:

- a. The automation files you created.
- b. Answers to the following questions:
A global SaaS company is using the following widget for billing:

Account Information

Please fill in the fields below.

Card Type	Payment Amount	
VISA	30.00	
Card Number (No dashes or spaces)	Expiration	
	Month	Year
Cardholder Name	Select month	Select year
First Name	MI	Last Name
Credit Card Billing Street Address		
City	State or Province	
	Select a state	
Postal Code (no dashes)		

* indicates required information

- Test this UI mock-up, can you find any problems with this screen? (Please pay attention to all functional aspects such as Security, Usability, Performance, etc.).
- Can you write 2–3 sample test cases for this functionality?
- Can you suggest a product solution for the most severe bug you've found?

Feel free to contact us regarding any question, we will be happy to help.

You can contact us via email or phone.
